## Notes

- As at period end.
- The net number of customers added during the three month period. Current year net new connections impacted by retailers deactivating dormant ICPs.
- Regulatory year - 6 months to 30 September.
- Billable ICP's.
- Billable volumes.
- Excludes gas sold as gas liquids as these sales are included within the gas liquids sales tonnages.
- Total of retail and wholesale LPG production and natural gasoline.
- Number of 9kg LPG bottles swapped and sold during the quarter.
- Includes product tolled in Taranaki and further tolled in the South Island.
- In the 6 months to 30 September 2014 we experienced four extreme events. Three were caused by extreme weather conditions with wind speeds peaking at 78 km/h in April, 104 km/h in June and 109 km/h in July. These weather events cause

**Notes**

- As at period end
- The net number of customers added during the six month period. Current year net new connections impacted by retailers deactivating dormant ICPS.
- Regulatory year - 9 months to 31 December
- Includes 21.6 minutes incurred in September 2010
- Volumes based on billable volumes
- Natural gas sales volumes exclude gas sold as gas liquids as these sales are included within the gas liquids sales tonnage
- Total of retail and wholesale LPG production and natural gasline
- Number of 9kg LPG bottles swapped and sold during the quarter
- Tolling volumes include product tolled in Taranaki and further tolled in the South Island
- In the 9 months to 31 December 2014 we have experienced four extreme events. Three were caused by extreme weather conditions with wind speeds peaking at 78 km/h in April, 104 km/h in June and 109 km/h in July. These weather events caused widespread damage and were the highest winds Auckland had experienced in the last 10 years. The fourth extreme event was caused by a fire in the cable trench at the Penrose Grid Exit Point.
- On 1 December 2014, Vector acquired Arc Innovations Limited, Meridian Energy's smart metering business which increased the number of smart meters by 139,118.

Nine months ended 31 March

<b>Notes</b>																										
1. As at period end. Comparatives for 2014 have been restated due to historical adjustment of ICPs processed during 2015.																										
2. The net number of customers added during the nine month period. Current year net new connections impacted by retailers deactivating dormant ICPs.																										
3. Regulatory year - 12 months to 31 March.																										
4. Bilateral ICPs.																										
5. Retailer volumes.																										
6. Excludes gas sold as gas liquids as these sales are included within the gas liquids sales tonnages.																										
7. Total of retail and wholesale LPG production and natural gas sales.																										
8. Includes product tolled in Tararua and further tolled in the South Island.																										
9. This is an unaudited value and subject to change.																										
10. Audited value includes the storm of September 2010.																										
11. In the 12 months to 31 March 2015 we have experienced four extreme events. Three were caused by extreme weather conditions with wind speeds peaking at 78 km/h in April, 104 km/h in June and 109 km/h in July. These weather events caused widespread damage and were the highest winds Auckland had experienced in the last 10 years. The fourth extreme event was caused by a fire in the cable trench at the Perouse Grid Exit Point.																										
12. On 1 December 2014, Vector acquired Arc Innovations Limited, Meridian Energy's smart metering business which increased the number of smart meters by 130,116.																										

## Vector Operating Statistics

	2022	2021
